Step-by-Step Guide to Downloading EPSQ from DSS website

1. Go to the website at www.dss.mil.

2. Click on EPSQ on the left side, the third subheading down the page.

3. Click on the statement that reads "All returning PSI work must be submitted via EPSQ v 2.2 – Available here! It's written in **RED**.

4. Scroll down until you see Downloading instructions -- Double click on "Press this Icon to Download EPSQ 2.2 (Windows).

5. Scroll down until you see the statement that you "acknowledge the terms for use" Double click.

6. Click on the version of Windows operating system that you are running. For approx 99% or more, you will click on the top button.

7. In the top tier, click on #2, "Download a "new" installation of EPSQ.

8. Click on the second option, which is called "SUBJECT EDITION".

9. Click on "Download Full Subject Edition".

10. At the download dialog box, you can click "open" or "save". If you click open, the file should download in approx 30 seconds.

11. When it is finished downloading, click on FINISH.

12. At the installation screen, click on INSTALL. You will need to designate which drive to be used to install the file. This will take approximately one minute.

13. You are ready to begin completing the EPSQ.
